Couples Resort

Spring - Couples Only

Spring is in the air and life in Nature is coming alive with excitement here at Algonquin Park, a perfect time to take a romantic vacation at Couples Resort and visit Algonquin Park.

Weather here in the spring can often be several degrees warmer than if you live near places like Lake Ontario as the ground here can warm up fast and we have no big Lake effect keeping air cool. Here you can enjoy outdoor hiking plus many other sports and attractions.

Whether you are a couple that wants to find that special time together uninterrupted or as a gift to someone special in your life, this experience will bring you closer together, and that is what life is all about.

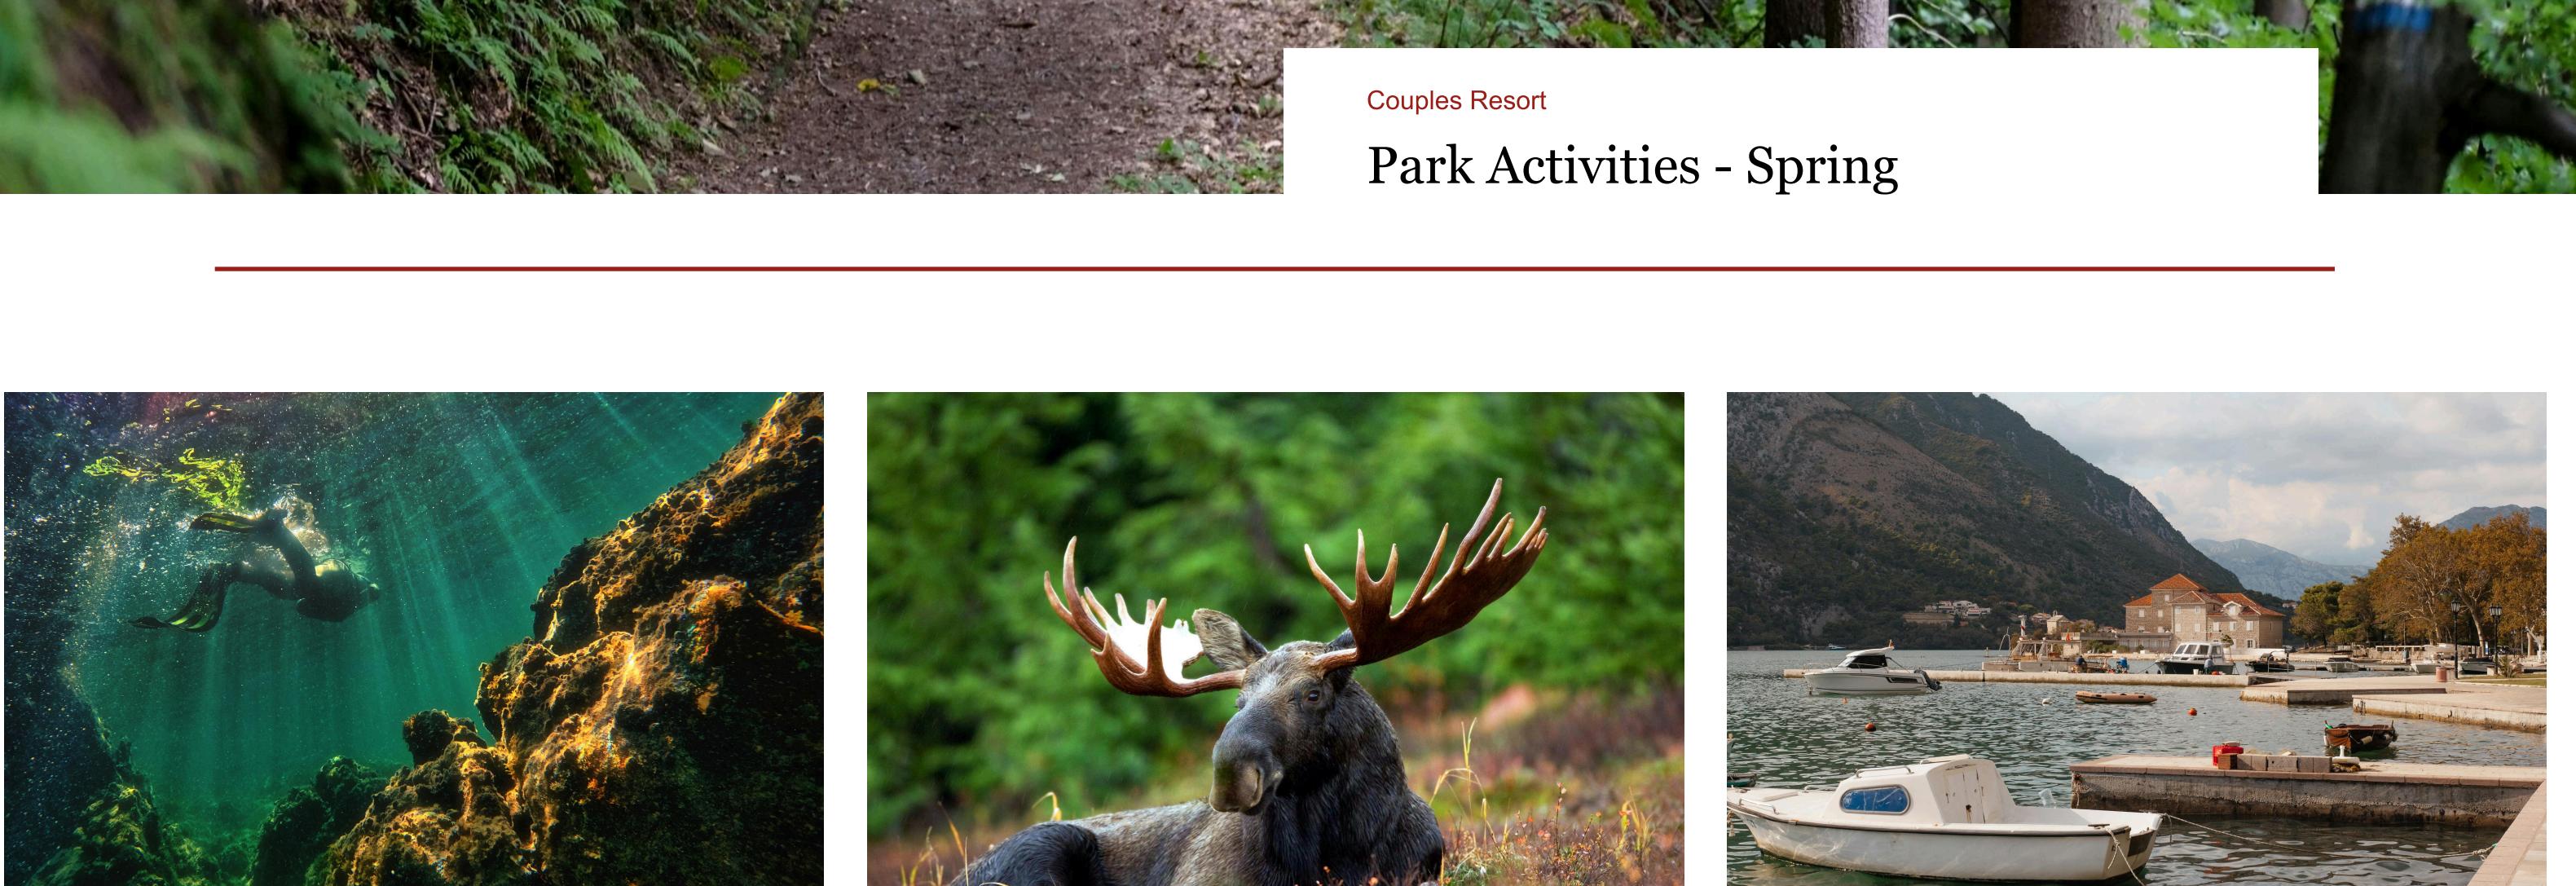

The resort sits at the edge of a tiny Village, Whitney, and on a gorgeous Algonquin Park Lake, Galeairy Lake. This Lake is 11 km long, Semi-Private and 95% undeveloped so it is great for discovering hidden bays and exploring what nature has to offer along the shorelines.
